SUMMARY

Computer Science student in the final semester of BSCS with a strong foundation in full-stack web development and AI workflow automation. Experienced in building responsive web applications, REST APIs, AI-powered automation using n8n and Google Gemini API, and performing data analysis with Python. Passionate about solving real-world problems through modern software technologies and continuously expanding technical skills.

EDUCATION

Virtual University of Pakistan

Bachelor of Science in Computer Science (BSCS), Final Semester, Studied Software Engineering, Artificial Intelligence, Database Systems, Web Development, and Full-Stack Application Development. 2022 – 2026

Premier Government College, Karachi

Bachelor of Commerce (B.Com), Studied Accounting, Finance, Economics, Business Communication, Marketing, and Management.

PROJECTS

Job Application Tracker | Tech Stack: React.js, Node.js, Express.js, MySQL, Tailwind CSS

- Developed a full-stack application to manage job applications efficiently.
- Implemented resume uploads, application status tracking, and reminder functionality.
- Built responsive user interfaces and integrated backend APIs.

AI Student Assistant | Tech Stack: n8n, Google Gemini API, Webhooks, Memory

- Built an AI-powered assistant capable of answering academic questions.
- Implemented conversation memory for contextual responses.
- Automated study note delivery via email using workflow automation.
- Integrated Google Gemini API with n8n workflows.

Exploratory Data Analysis (EDA) | Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn

- Cleaned and transformed real-world datasets.
- Performed exploratory data analysis to identify trends and insights.
- Created professional visualizations for data interpretation.

TECHNICAL SKILLS

React.js
Next.js
JavaScript (ES6+)
HTML5
CSS3
Tailwind CSS
Bootstrap
Node.js
Express.js
REST APIs
JWT Authentication

MySQL
Python
n8n
Google Gemini API
Prompt Engineering
AI Agents
Workflow Automation
API Integration
Git & GitHub
VS Code
Postman
Vercel
Netlify
Google Colab

CERTIFICATIONS

Modern Web Application Development — Saylani Mass Training Programme (2026)
Artificial Intelligence Using Python — DigiSkills.pk (2026)
UI/UX & Webflow — DigiSkills.pk (2026)
Cloud Computing — DigiSkills.pk

AI AUTOMATION PROJECTS

AI Student Assistant (Webhook): Developed an AI chatbot using n8n and Google Gemini API.; Automated academic query handling and study note generation.; Saved approximately 30+ hours of manual work each month. AI Student Assistant (Chat Trigger): Built an AI assistant using n8n Chat Trigger.; Implemented conversation memory for improved user interactions.; Automated student support workflows. AI Agent Student Registration: Designed an AI-powered student registration workflow using n8n.; Automated data collection, validation, and admission-related query handling.; Integrated Google Sheets for data storage and management.

STRENGTHS

Full-Stack Web Development AI Workflow Automation Problem Solving REST API Development Team Collaboration
Continuous Learning Strong Communication
